

The Sleeplogic®  
Collection  
Stamina™ Duvet

Sleep Well, Live Well

*We call Stamina™ nature's clone because it is the closest thing to down available. Stamina™ is a unique, patented, filler with all the well-known advantages of down and none of its drawbacks.*

DEFINING THE SLEEP ZONE™

# The Sleeplogic® Collection

## Stamina™ Duvet

SLEEP WELL, LIVE WELL

Stamina™ keeps both its fluffiness and slight bounce through years of use. Plump it up, give it a shake and it's like new. Stamina™ may even be washed as often as needed to keep it clean and free of allergens without changing its shape in any way. All these excellent qualities help to make Stamina™ durable and friendly as well as supremely downy and comfortable.

### Why a Stamina™ Duvet will give you the comfort and satisfaction you deserve:

- Down-like comfort
- Endlessly re-fluffable
- Washable at 60°C
- Hypoallergenic
- Highly durable
- Unique patented filling

### Maintenance

A Stamina™ Duvet is very easy to maintain. It can be washed at 60°C and tumble dried at a low setting. And can be washed as often as you like to keep it free from dust mites. Even frequent washing will not change the fine properties of the patented filling.

### The Sleeplogic Stamina™ Fiber Duvet

- Washable, durable Stamina™ Fiber never flattens or clumps
- Luxurious 100% cotton, 260 thread count percale cover
- Goose Down like comfort and support
- A proven dust mite control & anti-allergen product
- 3 year guarantee
